## smart & invisible WIRING

*The Design Concept of pigreco worked on aesthetics but also on easy assembling and quick installation process that result particularly easy and intuitive.*

*The cable management can be effected when the workstation is completely assembled. Cable rise can be made through side legs or through optional central tower upholstered in technical fabric. We highlight the maximum span of 3600 mm between the side legs and the possibility for the legs to be painted in two base colour finish, white and titanio or in optional 6 lacquered colours.*

# sound absorption

frontal screen

cabinet back

**1.** Fabric cat. C, D, F: fabric improves soundproof performance of the internal panel.

**2.** Acoustic Panel composed by melamine board 18 mm th. with specific linear perforation, designed to create a balanced environmental acoustic.

The fabric upholstery (Cat. C-D-F) personalizes the product and improves its sound-proof performance.

\* Available for projects only

## 95% less noise 20% more productivity

**1.** Tessuto cat. C-D-F: il tessuto aumenta le prestazioni del pannello fonoassorbente interno. **2.** Pannello realizzato in MDF spessore 18 mm e dotato di specifica perforazione differenziata studiata per creare un'acustica ambientale equilibrata. Il rivestimento in tessuto (Cat. C-D-F) personalizza il prodotto e ne incrementa il potere fonoassorbente.

\* Disponibile solo per progetti

**1.** Tissu cat. C, D, F: le revêtement en tissu augmente le pouvoir phono-absorbant du panneau intérieur. **2.** Panneau réalisé avec MDF 18 mm d'épaisseur et équipé de spécifique forage différencié, conçue pour créer une acoustique environnemental équilibré. Le revêtement en tissu (Cat. C-D-F) personnalise le produit et augmente le pouvoir phono-absorbant.

\* Disponible seulement pour les projets
